## In the name of Allah the Most Gracious, Most Merciful

Allah says in the holy Qur'an: «O you who believe; be afraid of Allah and give up what remains (as due money to you) from usury, if you are really believers. (278)» If you don't do so, be notified that a war from Allah and His Messenger (shall be declared on you), but if you repent, you shall have your capital sums. Don't treat others unjustly; and you shall not be dealt with unjustly. (279)» if the debtor is in insolvency, (has no money or in difficulty) then give him time till it is easy for him to repay, but if you remit it by means of charity, that shall be better for you, if you really know (280)»

(Al-Baquara, 278 – 280)

We have audited the attached financial statements of Faisal Islamic Bank - Sudan, which comprise the statements of financial position, the statements of income, changes in equity and cash flows as at 31 December 2013, and a summary of significant accounting policies and other explanatory notes.

### Board of Directors Responsibility for the Financial Statements

The Board of Directors is responsible for the preparation and fair presentation of these financial statements in accordance with accounting standards of the Accounting And Auditing Organization For Islamic Financial Institutions. This responsibility includes: designing, implementing and maintaining internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error; selecting and applying appropriate accounting policies; and making accounting estimates that are reasonable in the circumstances.

### Auditors Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards issued by the Accounting and Auditing Organization for Islamic Financial Institutions. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate for the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the directors, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

### Opinion

In our opinion, the financial statements present fairly, in all material respects, the financial position of the Bank and its financial performance and its cash flows for the year ended 31 December 2013 in accordance with accounting standards of the Accounting and Auditing Organization For Islamic Financial Institutions - Bahrain, and are in compliance with the requirements of the Companies Act 1925.
